INDUSTRIES  
Wholesale Aluminum and Building Products

**When it comes to protecting what matters most - your family, home, and business - trust Town & Country Industries. We offer a full line of reliable Eyewall Armor® shutters for year-round protection against extreme weather.**

Our Eyewall Armor® products have undergone extensive research, development, and testing to become the strongest and most durable hurricane protection products on the market. The Eyewall Armor® FullView™ & UltraView™ Bahama Shutters exceed Florida Building code HVHZ/non-HVHZ and IBC/IRC ASTM Standard requirements, which are the most stringent in the nation. They are approved by the Florida Building Code HVHZ/non-HVHZ for all regions and have also been evaluated by the Texas Department of Insurance.

Unlike conventional Bahama Shutters, Eyewall Armor® FullView™ & UltraView™ Bahama Shutters employ patented articulating louvers that offer the best outward views and can close to prohibit large volumes of air from pressurizing the structure. They are permanently affixed to your home or business, require no storage place, and can be made storm-ready by just one person within a few minutes.

Eyewall Armor® FullView™ & UltraView™ Bahama Shutters are mounted with a top hinge and utilize adjustable, telescoping side arms for flexible movement and shade protection. The articulating louvers can also be rotated to direct light into a dark room.

#### **FEATURES INCLUDE:**

- 53.5" clear span.
- Articulating louvers (no backing required).
- Easy to operate and adjust.
- Fully-tested to A.S.T.M. E1886-E1996 and TAS 201-202-203.
- 9-lb. Large missile impact resistant.
