## Looks Good on the Outside, Feels Good on the Inside!

Upgrade your home with Therma-Tru fiberglass doors, the first patented fiberglass door designed to deliver the look and feel of real wood, combined with the durability that outperforms wood or steel doors. Unlike traditional wooden doors, which can rot, crack, or warp, Therma-Tru doors are built to withstand the test of time—resisting dents, scratches, and rust commonly found in steel doors.

### Why Choose Therma-Tru Fiberglass Doors?

- **Durability:** Won't rot, crack, split, or warp like wood doors. Resists dents, scratches, and rust found in steel doors.
- **Cost-Effective:** Priced competitively against premium wood doors while offering superior performance.
- **Customizable:** Choose from a wide range of panel styles, handcrafted glass, sidelites, and transoms to create the perfect look for your home.
- **Long-Lasting Performance:** Built with precision engineering and quality materials for enduring strength, weather resistance, and superb security year after year.
- **Curb Appeal:** Enhance the look of your home with a door that blends beauty and performance.

### Benefits of Therma-Tru Fiberglass Doors

- **Energy Efficient:** Keeps your home comfortable with great insulating value.
- **Easy Maintenance:** No more worrying about fading, rotting, or constant upkeep.
- **Secure:** High-quality materials for added safety and peace of mind.

DOORS

### Wood Doors

- **Limitations:** Expensive, absorbs moisture, can peel or bubble, fades over time, requires regular maintenance, not energy efficient.
- **Advantages:** Beautiful wood grain, high-end look, scratches are easily repaired.

### Steel Doors

- **Limitations:** Easily dented, scratches lead to rust, paint chipping common, conducts temperature.
- **Advantages:** Lower maintenance, no cracking or bowing, less expensive, energy efficient, good insulating value, secure.

### Fiberglass Doors

- **Limitations:** None!
- **Advantages:**
  - **Lowest Maintenance:** No rotting, cracking, or warping.
  - **Resistant to Dents & Scratches:** Will not rust or deteriorate.
  - **Wood Grain Look:** Offers the appearance of real wood.
  - **Energy Efficient:** Great insulating value.
  - **Durable & Secure:** Resistant to warping, bowing, and twisting. Can be painted or stained.

Visit us at Town and Country to see for yourself why Therma-Tru is the preferred choice for homeowners looking for quality, durability, and style in every door.
