

# Eyewall Armor® Hurricane Fabric & Clips

Hurricane Fabric, Fabric Clips and Screws . . . the Easy Way!

**How many times have you protected your home by installing plywood over your doors and windows? Have you ever tried doing it alone with a hurricane threatening?**

**Great news! With our Eyewall Armor® Hurricane Fabric and Clips, anyone can quickly and easily install the hurricane rated fabric in a minimal amount of time, even by themselves! It costs less than other shutter systems and is hurricane rated, unlike plywood.**

**Features include:**

- PVC coated woven fabric is translucent which allows light into the home avoiding the blackout closed-in feeling when deployed
- High strength woven polyester with a PVC coating
- Fabric can be cut with good quality shears available at many office and fabric supply stores
- Quick and easy installation of the hurricane fabric with nylon hurricane clips using only three #14 x 1/2" hex head screws
- Easily cut to match arched, round and irregular window shapes
- Cover garage openings using a 2 x 2 x .125" removable angle at bottom
- Maximum pressure is +-60 PSF at 120" span
- Available by the roll, lineal foot and square foot
- Rolls or folds up for compact storage
- Lightweight for rapid one person emergency deployment

**Three Convenient Ways to Purchase:**

By the roll, lineal foot or cut to fit for specific openings

High strength woven fabric with PVC coating on both sides and nylon one-piece clips

Nylon one-piece clips securely retain fabric with only 3 #14 x 1/2" sheet metal screws

Custom labeling on each opening
